

Mapleton School District Community Preschool Information

Mapleton School District is currently in the process of seeking grant funding to start a Mapleton Community Preschool program. Our goal is to provide a full day preschool program for children between the ages of 3-5 that live in the Mapleton School District communities. The preschool program will be located on Mapleton School District property, on the elementary school campus.

It is our hope that the preschool program will increase student readiness for kindergarten, increase parent involvement with school and provide extra learning opportunities for children.

In order to gather data to support our grant applications, we are asking families of children who are currently under 5 years of age, to fill out the attached survey. *All survey data collected will remain confidential and is only being collected for the purposes of grant writing.*

We are currently in the beginning stages of developing the implementation plan for our preschool. The goal is to make Mapleton School District Community Preschool affordable for ALL families!

Please return Mapleton School District Community Preschool Parent Survey to the Mapleton High School Office or you can email it to Jodi O'Mara at jomara@mapleton.k12.or.us.

Thank you!

Mapleton School District Community Preschool Parent Survey

*This information will not be made public.
Use is for grant applications.*

In an effort to determine need for a preschool in the Mapleton Community, the Mapleton School District is gathering survey data in hopes of opening a pre-school.

The Mapleton School District Community Preschool is an early education program for children ages 3-5. It will be a state certified, affordable, accessible, all day preschool program that provides high-quality early learning. Staff will be district employees and class size will be small. Curriculum will focus on intentional teaching, small group learning, individualized one-on-one opportunities, and development of language and social skills. Parent and community involvement will be and integral, with parental education and increased involvement expected. High school Interns are anticipated to work in the preschool, supporting the Career Technical Education program. The preschool will also address food insecurity for young children.

1. Number of People in household.

2. Please list the ages and year born of all children in household – *please **do not** include names*

_____	_____
_____	_____
_____	_____
_____	_____

3. How many hours a week can you volunteer?

4. Please circle gross annual household income (*total earnings and wages before deductions*)

\$0-\$10,000	\$10,001-\$20,000	\$20,001-\$40,000	\$40,001-\$60,000	\$60,001-\$90,000	\$90,000 +
--------------	-------------------	-------------------	-------------------	-------------------	------------
