Advertising programs,welcoming community members

yes funding my small busniss of antique chairs and \carpets from the 2072 also more
foooooooooooooooooooooooooooooooooooooooooooooooooooooo.

Have some sort of reader board letting the community know when events are happening.

Publicize opportunities for specific types of volunteering, mentoring, and getting information about the schools. Hold quarterly community meetings or events for all taxpayers with above info and others (student speeches, performances, youth-adult joint brainstorming... Make community-use of district-facilities easier and friendlier, Eg for meetings, possible youth clubs, adult social group use, even adult/youth out-of school-time recreation... Actively work towards re-opening the pool both for student PE (swim & water safety) and for community recreation as it was once, and actively recruit partners such as Peace Health and Health Insurance co.'s for water-physical therapy, disability, and senior activity services.

Don't really know.

Use the internet and social media more to inform about events. For example, sporting events are not listed on the website or anywhere online unless a parent posts.

Get teachers and administrators to live in the community

We would like to know some of the answers to the questions previously asked. Three of my children went to Mapleton schools. I found the Teachers, office staff and special programs exceptional! It's why I don't complain about all the property tax money (for the schools) or new bonds. I don't know about everyone else but, thats about 2/3's of our total for the year. What I would love to see is our Community pool up and running/swimming again! I once heard it had a crack in it. Does anyone know exactly what IS wrong. Fact not rumors or speculation.

The school just needs to a better job teaching the students what's going to be on the state tests and SATs. Also, you'd think the school would do a better job with mental illness and suicide awareness. Other schools also have motivational quotes written in their bathrooms/Locker rooms. Considering how many kids at Mapleton are depressed I'd say the school needs to try harder. Get some motivational speakers, add some quotes, organize a couple things for the parents (maybe another speaker who can help them learn how to help their children with all of these feelings), have the Student Council organize things for kids to do on thanksgiving and Christmas Break (if possible) because some kids get depressed sitting at home. Just try harder.
